WHO ARE WE?

We are a creative design agency, specialising in marketing, graphic design and website design.

Habibi means “my love” in Arabic and that is exactly what the company and the services it provides means to its owners.

Habibi was established in 2006 and has since grown to be a reputable Design house in the lovely lowveld town, Hoedspruit.

Our qualifications include:

Graphic Design Diploma, Marketing Diploma, Photography Course, BCom Hons in Strategic Marketing Management, Project Management Certificate, BCom Informatics.

Mediocrity is not in our vocabulary and our client portfolio includes small to large companies. We get involved in community projects to give back and pride ourselves in our impeccable work ethic.

WEBSITE DESIGN

Want control over your own website? Gone are the days of having to code websites. We specialise in Wix and can have your website up and running in no time, depending on your requirements. We create a customized Wix website to match your unique brand — a cost-effective way to a beautiful website and one that allows you to make your own edits later without any coding experience. We don't keep all that IP stuff. We want your brand to succeed online and we want to empower you to control it all.

Cost of hosting and domain name registration not included in price.

We charge per hour for our work. This seems to be the fairest option as it protects both the interests of the client and ourselves. Our pricing is a sum of the hours worked shooting and editing plus the travel costs to your location.

We charge standard AA rates for travel to and from a location; this does however fluctuate with the petrol price. While it may seem high to you, remember that there is no compensation for the time spent travelling.
